[Verse 1]

Hey, she can't love you like I love you
Started really simple
Coming through cuz I missed you, and I couldn't wait to
kiss you
I tried to play shy a little, but not trying to move fast but
not too slow
Because I know, you're the kind of guy, I see you
already got me

[Pre-chorus]

She could never be—oh no
Half as good as me, let me show
You know what I mean, cuz I'm the real thing and I got
to have you
Been here by your side, living for you day and night
I don't understand why you're not my man but
I should be your girl

[Chorus]

I'm falling in love again, god damn we kissed again, it
went a little bit further than
I'm falling, oohh
I thought this boy was just a friend, I need my baby
here
Cuz can't nobody love me like he can

[Verse 2]

And now it's late now no talk, conversations on the
phone getting sparked
I'm about to jump in my car, and come and see you
I'm holding back I miss you, I'm letting go tonight
Oh, and baby I need you, and nothing can stop me,
we're too close now

[Pre-chorus]

Everything you do, got me crazy over you, I can't stand
the fact, that she is always on your back so
what's up
What you going do, cuz I'm really feeling you, oh yeah
And boy I need to know, if you think that I should be
your girl

[Chorus]

I'm falling in love again, god damn we kissed again, it
went a little bit further than

I'm falling, oohh

I thought this boy was just a friend, I need my baby
here

Cuz can't nobody love me like he can

She can't love you like I love you

[Repeat 1x]

[Rap verse 3]

Dang shorty I got my mind on my money and the hood
got me tied up

Plus my baby momma keep me fired up, these other
broad's probably get me wired up

But a fly nigga could see that you a rider, that's how
you got me creepin' and crawlin'

deep into a bawl six in the morning, we in the zone
deep then we all in,

trying to get it on then the b*tch keep callin' (I need
you) And she be killing it though, I see you

trying to fight it but you feelin' me though

Look, I'm feeling you right back, I'm gonna pick you up
in the back I know you like that

[Chorus]
