i can make my world come true
all my dreams will see me through
and this life wont get me down
my dreams will turn this all around
with a smile upon my face
i can see a better place
doesnt matter what may come my way
believe me now
i will win someday
someday someday yeah

i can make my wish come true
all my dreams will see me through
and this life won't get me down (no no no)
my dreams will turn things all around
with a smile upon my face
i can see a better place
doesnt matter what may come my way (no no no)
believe me now
i will win someday
