i think somethings going on,don't you. i'd rather know
what's up then leave.
everybody thinks that you're cheating on me.i told
them that you wouldn't
ever do that to me.but i think my feeling's have
changed.

i think your showing me a sign that you don't want me.
cause i've got that boom boom what you want.
but you are fighting it why?
i think your showing me a sign that you don't want me.
i just wanna know.

you've been acting strangly for these past few days.
you haven't even come to bed at your normal time.
you always go out late and come back in the morning.

i think your showing me a sign that you don't want me.
Cause i've got that boom boom what you want.
but you are fighting it why?
i think your showing me a sign that you don't want me.
i just wanna know

the signs over i know now!
