Open up your heart, my pretty little shy one  
Taste the tender sweetness that a loving kiss can bring  
To you  
Open up your heart my pretty little shy one  
Let me show you all the livin' you been missin'  
All there is to do.

I know that you are afraid of the world

Afraid of the things you see  
In my arms your gonna be strong  
As strong as love can make you be, so

Open up your heart my pretty little shy one  
Just do like I say and let me love you all the way  
And we'll make out O.K.
