ft. Letia Larok

strange encounters in the intersection of life (repeats)

chorus

some things got to happen  
stranger how it seems  
stranger as may seem  
like you will never know  
you may come across some crazy things  
see some crazy things  
make you wanna solve

growing up in the .. where I call home  
.. of the earth roll  
Laying in my bed with my window open  
Let me think of my self-conscious ..six in the mo'  
Come out ant catch the bus to any ,  
I am seeing visions from last night  
That's what I used to hear  
What's the definition of physically insane  
When your personality reflects your pain  
Is a shame how ,  
You're coming home 8 years now  
The world don't change  
.. you think you are saved now cause he ain't ,  
I am still .. how my aunt cooked her baby in the oven  
..and as soon as he left the lips of a layer  
She got more hair wire  
He walks out with his hands down with his ..  
Cause he is so shocked of that sound

Chorus
