We scorch the earth  
For all it's worth  
Last night  
You in ecstasy  
Now you don't remember me

It's runnin' too deep  
It's runnin' too deep for me

The sirens and the curfews  
Through the night  
Everybody's locked up tight  
What's going on  
It's been dark for much too long

It's runnin' too deep  
Runnin' too deep  
Runnin' too deep for me

If heaven loses face  
What will take its place

We've torn the treasure from the land  
Watched it turn to ashes in our hands
