Ooh, baby, baby, baby

Whoa... oh...

My, my, my, my baby, yeah, girl

Oh, I love you, baby

Ooh, yes, I, yes, I do, girl

I love you in the night

I'm gonna take it real, real slow (Ooh, my baby)

I understand what you told me

And if I didn't know

I always wanted someone just like you

I really to hold you

I'd give the world to you, oh, my darlin'

You know I will, yeah, yeah, you know I will, I surely will

I will never do anything to hurt you (I wouldn't do one single thing to you, babe)

I'll give all my love to you (Gonna give every bit of my love, my love)

And if you need me, baby, I'll come runnin' (Yes, I will)

Only to you (To you, my baby, yes, I will)

Why don't we just lay down, baby

And hold each other real, real close

Cause I don't wanna rush you, baby (No, no, no, no, no)

If time, if time is what you need the most

I always wanted to love you

You could make all my dreams come true

I want to love you, love you tonight, oh, my darlin'

Yes, I do (Na-na), yeah... yeah... yeah...

I will never do anything to hurt you (I will never do one little thing to you, baby)

I'll give all my love to you (And I'm gonna give you every little bit of my love tonight, girl)

And if you need me, baby, I'll come runnin' (Oh, ho, yes, I will)

Only to you (Only to you, baby, oh, oh, oh, I)

Mmm, mmm, now, now, now, now

Girl, I've been longin' for you, baby, for a long, long  
time  
Girl, let's make love tonight, babe  
I can make you feel real good, baby, I can make you  
feel real good, baby  
Sometimes, sometimes I get a little lonely, baby (It gets  
so rough for me, baby)  
And I need somebody I could call all mine  
I need the love, so fine

So you are the one for me, baby  
I know that you are the world for me, baby (You are the  
one)  
Yeah... yeah... yeah... yeah... yeah... yeah... whoa...

I will never do anything to hurt you (I will never, never  
do a thing to hurt you)  
I'll give all my love to you (I give you every single bit of  
my love)  
And if you need me, baby, I'll come runnin' (All you got  
to do, baby)  
Only to you (When you need somebody pick up the  
phone, I'll be there, I'll be right there)

I will never do anything to hurt you (Ooh, baby, baby,  
baby)  
I'll give all my love to you (Understand, understand  
what I'm sayin' to you, baby)  
And if you need me, baby, I'll come runnin' (Oh, baby)  
Only to you (Only to you, baby, only to you, baby, only  
you, baby, I'll never hurt you)

I will never do anything to hurt you  
I'll give all my love to you  
And if you need me, baby, I'll come runnin'  
Only to you
