### "Teach Me"

You say you want the simple things  
But to be treated like a queen  
You gotta have a king  
I want to know all your dreams  
All your needs  
That ain't his concern at all about those things  
Step in my bed I mean my class room  
I gotta leason that I really wanna teach you  
Girl take a seat  
I mean get comfortable  
I hope you learn fast  
And take it real slow

#### *[Chorus:]*

See I know what you want girl  
I know what you need  
Your man ain't got nothin' on me  
Cause that's my obsession  
Baby won't you listen and learn  
From the best and let me teach you somethings  
(Need you a go getta somebody to love you better)  
Let me teach you somethings  
(Need somebody more fresher come learn from the  
professor)  
Let me teach you somethings

You want to be held tight  
Hit from left to right all night  
You gotta turn it to the back  
Let me give it a smack  
Girl I know you like it like that  
Let me work you over  
I'll massage your shoulders  
Whatever you need I got it girl  
I'll give it to you  
Let you give it to me  
Now you got your PhD

#### *[Chorus:]*

See I know what you want girl

I know what you need  
Your man ain't got nothin' on me  
Cause that's my obsession  
Baby won't you listen and learn  
From the best and let me teach you somethings  
(Need you a go getta somebody to love you better)  
Let me teach you somethings  
(Need somebody more fresher come learn from the  
professor)  
Let me teach you somethings

See if you got you a man that don't know how to treat  
you  
Treat you, treat you  
Baby all you gotta do is call on the teacher  
Teacher, teacher  
When it's time for the lesson  
Love session  
I need you to listen  
Listen  
Can feel hear your heart beat  
You ger excited when you get what you need

*[Chorus:]*

See I know what you want girl  
I know what you need  
Your man ain't got nothin' on me  
Cause that's my obsession  
Baby won't you listen and learn  
From the best and let me teach you somethings  
(Need you a go getta somebody to love you better)  
Let me teach you somethings  
(Need somebody more fresher come learn from the  
professor)  
Let me teach you somethings
