

## Keith Sweat "What Goes Around"

Visit "[What Goes Around](#)" on [MotoLyrics.com](http://MotoLyrics.com)

What goes around  
Comes back around  
What goes around  
(baby what goes around come on)  
Comes back around  
(all comes back around)

Looks like the arguments we had make you mad  
Could you never thought you can call  
(I thought I knew you, all I knew)  
I thought I knew you that you respect the promises we  
make  
But girl you did deny it when you walk right out the  
door

Baby wont you close  
(baby close your eyes)  
Close your eyes  
And think of me  
Would you do the things that I did  
(would you do the things I did)  
I can make your dreams come true  
(see I can make your dreams)  
Come true tonight  
(come true tonight)  
Love  
(see we can meake love)  
All night long  
(but something just ain't right)

What goes around  
(baby what goes around, yeah yeah)  
Comes back around  
(will surely comes back around if you be, yeah yeah)  
What goes around  
(baby what goes around, oh yeah yeah yeah)  
Comes back around  
(will come back on you baby baby, yes it will)

Now all night long I wander, why play a fool  
And why I didn't read between the lines  
Like you came home late

(yeah yeah)  
Said you with your girlfriend  
(yeah yeah)  
In the land that hang up on the phone  
Everybody know baby what in the hell is going on

Don't you close  
(baby close)  
Close your eyes  
(And think of me)  
Would you do the things that I did  
(would you do the things I did)  
I can make your dreams come true  
(see I can make your dreams)  
Tonight  
(come true tonight)  
Love  
(see we can meake love)  
All night long  
(but something just ain't right)

What goes around  
(baby what goes around, yeah yeah)  
Comes back around  
(will surely comes back around if you let it oh yes it will)  
What goes around  
(baby what goes around, yeah yeah)  
Comes back around  
(will surely comes back around, yeah)  
What goes around  
(see you can't get through it wrong)  
Comes back around  
(see baby can't get through it wrong, yeah yeah yeah)
