To kiss and tell, it's just not my style  
But the night is young and it's been a while  
And she broke my heart, broke it right in two and it took  
some time  
But I'm feeling like I'm finally ready to find, find  
somebody new

I wanna kiss a girl, I wanna hold her tight  
And maybe make a little magic in the moonlight  
Don't wanna go too far, just to take it slow  
But I shouldn't be lonely in this big ol' world  
I wanna kiss a girl

It's that moment when you start closing in  
First you're holding back then surrendering  
It can start a fire, light up the sky  
Such a simple thing, do you wanna try?  
Are you ready to say goodbye to all these blues?

I wanna kiss a girl, I wanna hold her tight  
And maybe make a little magic in the moonlight  
Don't wanna go too far, just to take it slow  
But I shouldn't be lonely in this big ol' world  
I wanna kiss a girl

'Cause baby tonight it could turn into the rest of our  
lives  
Are you ready? Are you ready to cross that yellow line?  
Put your lips on mine, put your lips on mine baby

Do you wanna try?  
Are you ready to say goodbye to all these blues?

I wanna kiss a girl, I wanna hold her tight  
And maybe make a little magic baby  
Don't wanna go too far, just to take it slow  
I don't want to be lonely, I shouldn't be lonely

I wanna kiss a girl, I wanna hold her tight  
And maybe make a little magic in the moonlight  
Don't wanna go too far, just to take it slow  
But I shouldn't be lonely in this big ol' world

I wanna kiss a girl

I said I wanna kiss a girl

I, I wanna, I wanna kiss a girl

I wanna hold her tight

I wanna make a little magic out under the moonlight

I wanna kiss her now
