I used to cry out in the middle of the night
Baby hold me tight
But there was nobody beside me
When I opened my eyes
Now I've turned a corner on those days and nights
And something inside me is changing
I think I might be starting over
And I don't wanna run
Oh no 'cause you might be the one, baby

CHORUS

If ever I could love
I think it could be with you
If ever I thought I'd
Find somebody so true
I wonder if you feel
The same way that I do
If ever I could love
I think it could be with you

You know I can't read your mind my love
But it seems to me
That your heart and mine tonight
Are defying gravity
There's something so familiar and still so unknown
But the closer that we get
I swear it feels like coming home
And I'm ready to be brave
Oh yeah then you look at me and say, baby

CHORUS

If ever I could love
I think it could be with you
If ever I thought I'd
Find somebody so true
I wonder if you feel
The same way that I do
If ever I could love
I think it could be with you

If ever I could love x4

CHORUS

If ever I could love
I think it could be with you
If ever I thought I'd
Find somebody so true
I wonder if you feel
The same way that I do
If ever I could love
I think it could be with you

If ever I could love x4

I was scared to love again
Feel the pain that came when she walked out of my life
I got hurt so bad I swore I'd never
Let another get inside this heart of mine
But you touched my hand and every plan that I had
Disappeared like a falling star
And there's a new beginning
And I'm movin' to the rhythm of a beating, braver heart
