

## Keith Urban "Walkin' The Country"

Visit "[Walkin' The Country](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Runnin' from the rate race just as fast as I can  
Take off my tie so I can breathe  
Me, I'm going where the fresh air's blowin'  
Take a little walk in the country with me

Walk in the country with me  
You watch the sun sinkin' down on the trees  
It's gonna do us some good to get down in the woods  
Take a little walk in the country with me, hey

I'm so sick of all them TV shows  
I need some dirt road under my feet  
C'mon let's point our toes where the red fern grows  
Take a little walk in the country with me, come on now

Walk in the country with me  
You watch the sun sinkin' down on the trees  
It's gonna do us some good to get down in the woods  
Take a little walk in the country with me

Walkin' in the country  
Oh, oh, oh, bless my soul  
Just gimme that country road, yeah  
Come on now

Walk in the country with me  
You watch the sun sinkin' down on the trees  
It's gonna do us some good to get down in the woods  
Take a little walk in the country with me

Take a little walk in the country with me  
Come on now baby  
Take a little walk in the country with me  
Yeah, yeah
