Ask a little girl if she wants a piece of candy  
And you'll find yourself in front of a lynch mob or a jury  
And they'll read the riot act along with your Miranda  
warning  
And no one's come to bail you out  
And it's already morning

#### CHORUS

But you've got to chalk it up to paranoid society  
No one lets you get too close  
Coz they don't wanna catch your disease

A White girl loves a Black boy and her parents can't  
believe it  
Coz they still believe all good girls don't even try to  
dream it  
His parents are no better coz they still believe the myth  
If you're born a certain color  
That's the color you should be with

#### CHORUS

What do you do when your disease is someone else's  
ignorance  
What do you do when your disease is someone else's  
hatred  
What do you do when your disease is what you are?
