(Curly Putman - Keith Whitley)

It hurts to hear me say that it won't hurt to say goodbye
You act like I'm the only one of us who's gonna cry
You think you'll walk away without a scar and no regrets
But I'm not that easy to forget.

My goodbye look will haunt your sleep no matter what
you do
We've made so many memories you're bound to feel a
few
That one night you'll remember how it was a day we
met
'Cause I'm not that easy to forget.

There'll always be a part of me somewhere in your
mind
You're gonna find a love like mine just won't lay down
and die
The future's looking bright to you but your past ain't
over yet
'Cause I'm not that easy to forget.

No, I'm not that easy to forget...
