All my girls, on the floor  
Here we go, here we go, here we go, now  
All night, right now, here we go, here we go, come on

This one's for all the ladies who can hear me  
The girl next door or the little shawdy listening  
So beautiful no matter your role  
Who get through rain or storm drama ignoring

Sometimes our situations get complicated  
We've been involved with things we never thought we'd  
make it  
But when we clear our head you know  
Nothing can hold us, man, if we understand

Don't lose yourself, girl, don't give up  
Don't change, go straight for what you want  
Just love yourself and all that you do

To all my girlz in the hood with their headstrong  
For all my girls that live the struggle that is going on  
And all my girls growing up with their daddies gone  
All my girlz, we're gonna make it

To all my girlz in the hood that be having fun  
For all my girls that keep a smile no matter what's  
wrong  
And all my girls looking back on how far they've come  
That's the way we gotta play it

This one's for all the ladies watching over  
Who's down for you when it seems you can't get over  
The ones you call whenever you fall  
To get through pain and joy always there for ya

So when it's tough on the block, dust ya shoulders  
It may get hard sometimes, you'll get over  
Never settle, you're worth it you know  
So live your life full and you will understand

Don't lose yourself girl, don't give up  
Don't change, go straight for what you want

Just love yourself and all that you do

To all my girlz in the hood with their headstrong  
For all my girls that live the struggle that is going on  
And all my girls growing up with their daddies gone  
All my girlz, we're gonna make it

To all my girlz in the hood that be having fun  
For all my girls that keep a smile no matter what's  
wrong  
And all my girls looking back on how far they've come  
That's the way we gotta play it

All my girls, on the floor  
Here we go, here we go, here we go, now  
All night, right now, here we go, here we go, come on

All my girlz in the hood move something  
From the O to LA throw it up and  
Down South and through the A get it Crunk  
'Cuz that's the way we like to play it

From the Lu to VA Shake something  
Chi-Town to MIA feel it thumping  
All my girlz around the way turn it up  
'Cuz that's the way we like to play, yeah

To all my girlz in the hood with their headstrong  
For all my girls that live the struggle that is going on  
And all my girls growing up with their daddies gone  
All my girlz, we're gonna make it

To all my girlz in the hood that be having fun  
For all my girls that keep a smile no matter what's  
wrong  
And all my girls looking back on how far they've come  
That's the way we gotta play it

To all my girlz in the hood with their headstrong  
For all my girls that live the struggle that is going on  
And all my girls growing up with their daddies gone  
All my girlz, we're gonna make it

To all my girlz in the hood that be having fun  
For all my girls that keep a smile no matter what's  
wrong
