[VERSE 1:]

Me for you. You for me
Boy I claim it, Let it be
If you need it, Boy I got it
Love is right here, In my pocket
From the bottom, To the tippy
I will go all in as long as you with me
Paint another when the color fades
To paint you red, when it's all grey.

[BRIDGE:]

Turn it up, if you're feelin me
If you're in love and it feels like a dream
Turn it up, if you're feelin me
Let your heart beat along with the keys

[CHORUS:]

Through the fire, through the rain
When you're so close, when you're far away
Ima shield you from the pain
I can show you better days

When you feel like it's over
Ima hold ya, make you stronger
There's no me, without you
Boy I swear we're living proof like fire and smoke.

Yea Like and fire and smoke
Like fire and smoke

[VERSE 2:]

Fill you up, when you're half full.
When you're in love there's no such thing as empty.
Swim in my love, like a pool.
I'll be there to help you float.
Not even an earthquake can shake us,

We ain't made of glass, they can't break us.

Better kiss good, it feels greater

Lovin you is what I was made for

[BRIDGE:]

Turn it up, if you're feelin me

If you're in love and it feel like a dream

Turn it up, if you're feelin me

Let your heart beat along with the keys

[CHORUS:]

Through the fire, through the rain

When you're so close, when you're far away

Ima shield you from the pain

I can show you better days

When you feel like it's over

Ima hold ya, make you stronger

There's no me. Without you

Boy I swear we're living proof like fire and smoke.

Yea Like and fire and smoke

Like fire and smoke

[VAMP]

Can't nobody love you better

Better never let another.

Better never, let another love you better.

We together forever, forever, forever.

[CHORUS:]

Through the fire, through the rain

When you're so close, when you're far away

Ima shield you from the pain

I can show you better days

Through the fire, through the rain

When you're so close, when you're far away

Ima shield you from the pain

I can show you better days

When you feel like it's over

Ima hold ya, make you stronger

There's no me, without you

Boy I swear we're living proof like fire and smoke.

Like fire and smoke
Like fire and smoke
Like fire and smoke
Like fire and smoke
