### "Love You and Hate You"

Visit "[Love You and Hate You](#)" on [MotoLyrics.com](http://MotoLyrics.com)

I love you so much  
I hate you so bad  
said "I don't miss you"  
You know that's not true  
boy I want you bad  
I hate you so much  
but I love you oh so bad  
when I say I'm leaving  
I don't mean it  
I just want you back

Got my hopes up  
when we broke up  
That we would get back always said that no matter  
what we would be together  
I want you back more than ever  
feels like we on a roller-coaster  
you take me up high then take me down low  
there go them games boy you think your clever  
you try to play me its so whatever

somedays we on the same page oooo then we go our  
separate ways and our loves down the drain  
then I'm calling you again  
somedays we on the same page then we go our  
separate ways and our loves down the drain then I'm  
calling you again

I love you so much  
I hate you so bad said "I don't miss you"  
you know that's true boy I want you bad  
I hate you so much  
but I love you oh so bad  
when I say I'm leaving  
I don't mean it I just want you back

lalalalalalalaaa  
tell me or when we can make this better  
boy I want you back now forever  
can we base it all on this week together  
boy I want you back now forever

when you call me and I hang up  
and I call right back and you pick up  
phone dies cause we talk forever  
cant resist you got super powers  
only want me when your lonely  
but when I want you, you don't know me  
you text me and say "I'll hit you later"  
really I wish you would come and save me

somedays we on the same page  
then we go our separate ways  
and our loves down the drain  
then I'm calling you again  
somedays we on the same page  
then we go our separate ways  
and our loves down the drain  
then I'm calling you again

I love you so much  
I hate you so bad said "I don't miss you"  
you know that's not true  
boy I want you bad  
I hate you so much  
but I love you oh so bad  
when I say I'm leaving  
I don't mean it

lalalalalalaaa  
tell me or when we can make this better  
boy I want you back now forever  
we can base it all on this week together  
boy I want you back now forever  
lalalalalalaaaaala  
tell me or when we can make this better  
boy I want you back now forever  
lalalalalalalalalaaa  
we can base it all on this week together  
boy I want you back now forever
