We were so close like two souls in one heart
But you're giving me this feeling that we're drifting
apart
You don't come to me like you use to and I don't cry on
your shoulder
I'm trying to understand this before darkness takes
over

Did we lose touch cause' I didn't show you love?
Did I say too much, didn't I say enough?
Did I let you down last time you came around?
I hate to see you pull away

It's like our rainbow's fading to black and white
And I just don't know why we have to fight
Do we have a problem? Can we resolve it?
Is it something that we gotta talk about? Can we figure
it out?

'Cause if we can't make it work, make it right
Our rainbow's gonna turn to black and white
White, white, white, white

The distance between us is growing everyday
Filling up with words, we had no chance to say
What we had was like magic, we'd always thought the
same thing
I'm afraid we might lose that, the colors are already
changing

Did we lose touch cause' I didn't show you love?
Did I say too much, didn't I say enough?
Did I let you down last time you came around?
I hate to see you pull away

It's like our rainbow's fading to black and white
And I just don't know why we have to fight
Do we have a problem? Can we resolve it?
Is it something that we gotta talk about? Can we figure
it out?

'Cause if we can't make it work, make it right

Our rainbow's gonna turn to black and white

Rainbow, the shades have turned to black and white
Every color disappears when you're not here
Our rainbow turns to black and white
Can we resolve it? We gotta get over it

The shades have turned to black and white
Every color disappears when you're not here
Our rainbow turns to black and white
Can we resolve it? We gotta get over it

I just wish we could go back to the way we were before
as friends
I mean right now it just seems like something's wrong
No more fights, no more violence
Wanna be best friends

Just doesn't make sense, I mean I know how it can be
We all get times when I just wished we wouldn't come
to this
Can we get over this? We gotta get over it
No, no, no, no, no, no, oh
