

Adam Hood "Lost Time"

Visit "[Lost Time](#)" on MotoLyrics.com

I hope you find a friend to lean on
hope you make a name for yourself
hope you find a man that deserves you
hope nashville treats you well

But you hope that I lose sleep at night
you hope I die a lonely death
You say I never cared about you
you hope that I burn in hell

I never did anything wrong
I made you number one, and
those days are over and gone
I'm making up for lost time
I'm gonna get drunk tonight

I'm sorry I never gave you
one hundred and ten percent
nobody will ever treat me
anywhere as good as you did

I'm not afraid to love somebody
I'd just rather keep to myself
I need to take care of own, and
not have to worry bout someone else

I never did anything wrong
I made you number one, and
those days are over and gone
I'm making up for lost time
I'm gonna get drunk tonight
pound 25 cold bud lights, and
sleep in a strange girls bed tonight
