Ohh
Seconds hours so many days
You know what you want but how long can you wait
Every moment lasts forever
When you feel you've lost your way
What if my chances were already gone
I started believing that I could be wrong
But you gave me one good reason
To fight and never walk away
So here I am still holding on

With every step you climb another mountain
Every breath it's harder to believe
You'll make it through the pain
Weather the hurricanes
To get to that one thing
Just when you think the road is going no where
Just when you almost gave up all your dreams
They take you by the hand and show you that you can
There are no boundaries
There are no boundaries

I fought to the limit to stand on the edge
What if today is as good as it gets
Don't know where the future's heading
Nothing's gonna bring me down
I've jumped every bridge I've run every line
I risk being safe, I always knew why
I always knew why
So here I am still holding on

With every step you climb another mountain
Every breath it's harder to believe
You'll make it through the pain
Weather the hurricanes
To get to that one thing
Just when you think the road is going no where
Just when you almost gave up all your dreams
They take you by the hand and show you that you can

You can go higher

You can go deeper
There are no boundaries
Above and beneath you
Break every rule cause there's nothing between you
and your dreams

With every step you climb another mountain
Every breath it's harder to believe
You'll make it through the pain
Weather the hurricanes
To get to that one thing
Just when you think the road is going no where
Just when you almost gave up everything
They take you by the hand and show you that you can
There are no boundaries
There are no boundaries
There are no boundaries
No boundaries
Yeah, there are no boundaries
