I'm gonna get out come tomorrow
Take the first bus outta town
Hey, it ain't easy
But it'll be easy where I'm bound

We been fightin' for way too long now
Same old story every day
Hey and if it'll help you
My bags are waitin'
And I can't be late

There's not a minute's thought of where I'm goin'
But I think it's high time I leave
So if you're sick of bein' tired, baby get ready
And I'll take you with me

I'm gonna get out on the highway
Gonna start the car
Shut up and drive
I'm gonna find a dirt road in the country
Let the sun shine

Ain't no bright lights in my hometown
Ain't no highrise, no six-lane road
Hey and I'm screamin' on the inside to get up and go

You know ships have never sailed in the desert
No sooner than the rocks will bleed
So if you're sick of bein' tired, baby get ready
And I'll take you with me

There's not a minute's thought of where I'm goin'
But I think it's high time I leave
So if you're sick of bein' tired, baby get ready
And I'll take you with me
