November not much to remember  
You were not in sight  
December change of the weather  
You were by my side  
Love is all we want  
Love  
Love is all we need  
Is all that we really want  
No matter where the day goes  
I know your close by  
Changes in the seasons  
It's just what's required  
Love is all we want  
Love  
Love is all we need  
It's all that we really want  
Love is all we want  
Love  
Love is all we need  
It's all that we really want  
Yeah...  
Love love love is what we want  
It's what we want  
It's what we really need  
Love Love love love  
Is what we want  
Is what we want  
Is what we really need  
Yeah... yeah  
Love is what we want  
Is what we really want  
Yeah yeah...  
Love
