My mind is so clouded
I can't think of anything to say
Yet there's so many thoughts
Life keeps throwin' my way
About life and death and
All the in between
What I can physically touch
And what is unseen

Bein' able to laugh after I cry
And what I want for the rest of my life

I wanna cry I wanna scream
I wanna feel and live my dreams
I wanna jump I wanna run
I wanna laugh and have some fun
I wanna live I wanna dance
I wanna love and take a chance
I wanna I wanna ohh ohh live

I'm findin' myself
More and more every minute I live
How to follow my heart
Learn how to give
Love a little more and
Cut myself some slack
Don't wanna regret
For holdin' back

Each day is my journey along life's road
I'm excited to see what my future holds

I wanna cry I wanna scream
I wanna feel and live my dreams
I wanna jump I wanna run
I wanna laugh and have some fun
I wanna live I wanna dance

I wanna love and take a chance
I wanna I wanna ohh ohh live

C'mon get outta your seat

Get crazy stomp your feet
C'mon don't be too proud
Get a little crazy and sing out loud

I wanna cry scream feel dream
I wanna jump run laugh and have some fun
I wanna live dance love and take a chance
I wanna I wanna ohh ohh

Cry I wanna scream
I wanna feel and live my dreams
I wanna jump I wanna run
I wanna laugh and have some fun
I wanna live I wanna dance
I wanna love and take a chance
I wanna I wanna ohh ohh

Cry scream feel dream
I wanna jump run laugh and have some fun
I wanna live dance love and take a chance
I wanna I wanna ohh ohh

Cry I wanna scream
I wanna feel and live my dreams
I wanna jump I wanna run
I wanna laugh and have some fun
I wanna live I wanna dance
I wanna love and take a chance
I wanna I wanna ohh ohh live
