

## Kelis "Fire"

Visit "[Fire](#)" on [MotoLyrics.com](#)

Okay Kelis, making it outta here  
Spragga Benz on the track, get over here Kelis  
It's like that, it's that Kelis, grazzily insane  
Kelis and Sparaggress, dance Kelis  
Hollow, watch a little

Go left, go right, go all day, go all night  
Keep doing it to the right, in the pocket stuck it up tight  
Build it up now, get it too good, I'm in patience  
Watcha body do good? Don't move it, babe  
Hold it right there, I'm a do my own thing over here  
Play all night, here I come

Well, I'm ready, I'm ready, I'm comin' through  
So hold steady feel the fire like the suns on you  
Get it up, keep it up dance with me all night long  
No problem, you know I got the flow, come on, let's go  
I got Kelis with me and the fire is growing up slow

Where there's fire there danger, don't wanna know  
where time  
Sparks are flying between with me, exchanging blazes  
So hurt somebodies bound together, I feel the heat  
From my fire and there no return, I don't wanna, let's  
go  
(Go, here we go, watch your flow, graises)

Go left, go right, go all day, let's not fight  
Keep listening hold me up tight, don't let me go  
It's early in the night, give it up now, hit it too good  
Watch me close up, watch my body do good, don't  
move it  
Babe, hold me right there, I'm a do my own thing over  
here  
Play all night here I come

Well, I'm ready, I'm ready, I'm comin' through  
So hold steady feel the fire like the suns on you  
Get it up, keep it up, dance with me all night long  
No problem, you know, I got the flow  
Come on, let's go I got Kelis with me  
And the fire is growing up slow

Where there's fire there danger, don't wanna know  
where time  
Sparks are flying between with me, exchanging blazes  
So hurt somebodies bound together, I feel the heat  
From my fire and there no return, I don't wanna, let's  
go  
(Go, here we go, here we go, red square)

Danger, danger, let's all be aware, we be raisin' the  
roof on air  
Feelin' excitement, it's in the air, Kelis be changin' the  
atmosphere  
Look out ladies about next year, all our root boys  
The one other, the way you movin' your lips  
And your sexy lips and loosin' beyond compare

Where there's fire there danger, don't wanna know  
where time  
Sparks are flying between with me, exchanging blazes  
So hurt somebodies bound together, I feel the heat  
From my fire and there no return, I don't wanna, let's  
go  
(Go, here we go, watch your flow, graises)
