What, what, what, what, what, what?  
What, what, what, what, what, what?

I ain't one to spark shit  
But this is dedicated to them bitches who talk shit  
They wanna run their damn lips  
But all they really want is some more attention

Fuck them bitches  
Fuck them bitches  
"That's right", I said it  
"That's right", I said it

Walkin' down the, walkin' down the  
Walkin' down the, walkin' down the  
Walkin' down the hallway, lookin' at chickens  
Talkin' mad shit but they don't wanna listen  
Listen, why y'all trippin'?  
I aint tryna fight but you lookin' for a whippin'  
(Ooh)

Keep talkin' that shit  
You keep talkin' that shit  
(Keep talkin')  
What you gonna do?  
(What you gon' do)  
What you gonna do?

I heard you was sayin' this  
And that about me and so and so  
And how we did this and that  
But I don't really like you talkin' shit behind my back  
And if you don't stop, you might catch a little what?

Keep talkin' that shit  
You keep talkin' that shit  
(keep talkin')  
What you gon' do?  
(What you gon' do)  
What you gon' do?

I don't really like you talkin' about me

Sayin' this and that when you don't know me  
I don't really like you talkin' about me  
Sayin' this and that when you don't know me

Keep talkin' that shit  
You keep talkin' that shit  
(Keep talkin')  
What you gon' do?  
(What you gon' do)  
What you gon' do?  
(What, what, what, what, what, what?)

Look, girl, look  
Keep my name out your mouth  
I'll keep my foot out your butt  
'Cause you don't know whassup  
So mind you biz and shut the fuck up

Keep talkin' that shit  
You keep talkin' that shit  
(Keep talkin')  
What you gon' do?  
(What you gon' do)  
What you gon' do?

Everybody always wanna sit around and gossip  
In everybody business, always tryna talk shit  
You could say that bitch, ho but save that shit for later  
'Cause you in the Kool-Aid and don't know the flavor
