There's a wild streak in me  
But it's only for you to see  
Look to my heart  
'Cause you know I'm ready to start  
I guess I'm tryin' to say  
"Yes I've been waiting for this very day"  
Hope you're goin' too slow  
'Cause we're about to shoot the sun a glow

How do we make it, I do know  
If there was ever a problem they had to go  
Sometimes it's kinda hard, yes I do agree  
See one plus you just equals me  
They'll just watch us glow  
They'll just watch us glow

Now in love something crazed  
Exude from your eyes when they are fixed on me  
And like the eternal flame  
We have a fire that won't ever stop burning  
There's a power in numbers baby  
But two is deemed the perfect team  
Me and you equals two  
We will battle the masses baby, but we will claim the  
victory

How do we make it, I do know  
If there was ever a problem they had to go  
Sometimes it's kinda hard, yes I do agree  
See one plus you just equals me  
They'll just watch us glow  
They'll just watch us glow

Some said, "We would never change"  
Look at us now  
People tried to tear it all apart  
Boy you stole my heart so quickly

How do we make it, I do know  
If there was ever a problem they had to go  
Sometimes it's kinda hard, yes I do agree  
See one plus you just equals me

They'll just watch us glow  
They'll just watch us glow

How do we make it, I do know  
If there was ever a problem they had to go  
Sometimes it's kinda hard, yes I do agree  
See one plus you just equals me  
They'll just watch us glow  
They'll just watch us glow

Watch us  
Watch us  
They'll just watch us glow  
They'll just watch us glow  
They'll just watch us glow
