"Don't need no paper

Don't need no pencil

Don't need no love letters

Cause I just wanna get along with you

No beeper

Don't need no cellular

No digital better (listen)

I just wanna get along with you

Try me

Cause I agree

What makes you happy

But the part that I don't get is

Why Me

You deny me

Now I'm forced upon this planet

Sadly lonely nights I'm used to getting

You took my heartbeat from me

This is the saddest story

What was wrong with my love

You took my heartbeat from me

Was it I loved you poorly

Whatever it was

I just wanna get along with you

Don't need no car

Don't need no truck

Don't need no vehicles

Cause I just wanna get along with you

No planes

Don't need no trains

Don't need to be passenger

Cause I just wanna get along with you

Try me

Cause I agree

What makes you happy

But the part that I don't get is

Why Me

You deny me

Now I'm forced upon this planet

Sadly lonely nights I'm used to getting

You took my heartbeat from me

This is the saddest the saddest story

What was wrong with my love

You took my heartbeat from me

Was it I loved you poorly

Whatever it was

I just wanna get along with you

You took my heartbeat from me
Don't need no clothes
Don't need this house
Don't need this land or sky
Cause I just wanna get along whit you
This eyes
Don't need this ties
Dear Diary
I remember like it was yesterday
It was October 30th
I no longer have any need for these worldly things
I wanna go where he is
I'll follow the fire in the sky
And just like that I'll be gone
You took my heartbeat from me
This is the saddest story
What was wrong with my love
Your took my heartbeat from me
Should have just stabbed it for me
From ashes to dust
I just wanna get along with you
