Don't need no paper
Don't need no pencil
Don't need no love letters
Cause I just wanna get along with you
No beeper
Don't need no cellular
No digital letter (listen)
I just wanna get along with you

Try me
Cause I'd be
the one that makes you happy
But the part that I don't get is
Why Me
You deny me
Now I'm forced upon this planet
Sadly lonely likes I'm used to gettin
You took my heartbeat from me
This is the saddest story
What was wrong with my love
You took my heartbeat from me
Was it I loved you poorly
Whatever it was
I just wanna get along with you

Don't need no car
Don't need no truck
Don't need no vehicles
Cause I just wanna get along with you
No planes
Don't need no trains
Don't need to be passenger
Cause I just wanna get along with you

Try me
Cause I'd be
the one that makes you happy
But the part that I don't get is
Why Me
You deny me
Now I'm forced upon this planet

Sadly lonely likes I'm used to gettin
You took my heartbeat from me
This is the saddest story
What was wrong with my love
You took my heartbeat from me
Was it I loved you poorly
Whatever it was
I just wanna get along with you

Don't need no clothes
Don't need this house
Don't need this land or skies
Cause I just wanna get along with you
This eyes
Don't need this ties
As a matter of fact this damn life
Cause I just wanna get along with you

Try me
Cause I'd be
The one that makes you happy
But the part that I don't get is
Why me
You deny me
Now I'm forced upon this planet
Sadly lonely likes I'm used to gettin
You took my heartbeat from me
This is the saddest story
What was wrong with my love
You took my heartbeat from me
Should have just stabbed it for me
From ashes to dust
I just wanna get along with you

Dear diary
I remember like it was yesterday
It was October 30th
I no longer have any need for these worldly things
I wanna go where he is
I'll follow the fire in the sky
And like that I'll be gone

You took my heartbeat from me
This is the saddest story
What was wrong with my love
Your took my heartbeat from me
Should have just stabbed it for me
From ashes to dust
I just wanna get along with you
