Earth to your brain

Yo, yo, yo, yo

Yo, yo, Houston I think we have a problem

Yo, yo, I think we have a problem

Yo, yo, we have a problem

Yo, yo

[Kelis]

Days, you know those days

When everyone seems to aggravate you

Unfazed, fucked up ways

Don't try to ignore, you know that it's true

See you say to yourself that you really don't wanna deal

And this day to day action on Earth just don't appeal

You know how hard you try

You've been known to take so much

They shoot at you cause you're fine

Bite the bullet I know that it sucks

If security's thin then faith will pull you through

If you still angry follow me

And do what I do

[1] - Do you hear what I'm talking 'bout?

Do you hear we can conquer the world?

Got this whole world running from

This love between a boy and a girl

They're afraid of this chemistry

Plus the speed of light of laser guns

They go

To the light in every one

There you want some friends

Seems like everybody has friends

Depends on what you call friends

You don't really care you just want one

It's a person full of feelings but nobody's there

But you have to ask yourself if they were

Would they really care?

They do bullshit some times
They do the things that you've done
They're people just like you
But tell me do you really want one
98 percent of faith won't follow through
Don't you know real magic comes from the other two?

[Repeat 1]

[Repeat 1]

It was last week we were watching TV
My boyfriend wanted to watch channel three
Then he started to freak
The news flash came on then
So I said hey, my popcorn's burning
Hey, why is the channel turning?
Hey, that was NASA what did they want
Hey, yo just pass the blunt
I was so high that I didn't realize what they said
Plus my eye vision fried
If it's not then it's messing with my head
Hey, you can't be serious
Hey, but I need my contacts
Hey, float and spin
Hey, so I turned and I said, shit

[2] - Do you hear what they talking 'bout?
About to send your black ass to Mars
That's exactly what I'm talkin' bout
Money, science, space, and mars
Till someday you got that million
Just because you've been hanging with stars
Wake up, wake up, wake up, wake up
And send your black ass to Mars

[Repeat 1]
