[N.E.R.D.]

Ay yo while I dream about Fortune 500 man  
Hundred grand bracelets  
The diamonds in my ear only cost as much as a facelift  
When the listeners picture this  
They gon' say shit  
Me and you fucking in the window of my spaceship  
High like fuck  
To all the bitches that I might fuck  
Get to see they would only fuck my life up  
The flyest couple killin' em subtle  
Delivering our first born on a NASA space shuttle  
Come on

[Kelis]

Have you ever thought there might be something out  
there?  
Far out, way out  
Would you think those movies are insinuating?  
Look out, look out  
Do you think you'd even know one if you saw one?  
Watch out, watch out  
If you think the government just don't know nothing  
Watch out, watch out

[1] - The roller rink, the roller rink  
Just skate away no need to think  
No cars and minks, no Gucci links  
No need for shrinks, just roll the rink  
The roller rink, the roller rink  
Just skate away you don't need to think  
No cars and minks, no Gucci links  
No need for a shrink

If you see what's coming our way then get ready  
Watch out, watch out  
Ain't gonna be no one in bed to put your hands up  
No doubt, look out  
Better hide your babies and all of your family  
Be right, look out  
If you think the government just don't know nothing

Better watch out, watch out

[Repeat 1]

[Repeat 1]

[N.E.R.D.]

Ay yo, ay yo the whole world gets hot  
When they hear this Neptune talk  
N.E.R.D. we levitate when we moon walk  
Ain't shit stoppin', my laser clip dropping  
Pullin' up in my intersects with my bitch robbing  
Star Track we walk around with rockets in our pockets  
Make my fucking dick hard the way my glock spit  
Remind me of last night got my neck and cock licked  
Day dream, rude awakening she smoking chocolate  
Jesus, Simon  
Love roaming like Caesar's time and  
Yo Kelis you Arabian diamond  
If I'm the sun and your a diamond  
Baby we be shining  
And all my hoes gone  
You blewed them away and the ozone  
So hot and so rich feeling this ghost tone  
Sol nigga and sol bitch  
Accept our foes is gone  
The world smells is fishy  
But I smell nothing when your lips kissed me  
Guardian now, fuck is he?  
Don't dare but love me  
Karats stuffed  
Straight up beware of us  
Body in the truck odor it's just scared of us  
The devil's mad and ain't trying to see the  
Armageddon  
So I name our first daughter Nazareth  
My first son Heaven  
Yeah the world is real crazy, huh  
And ya don't stop, uh  
Star Track, Kelis, that's how we do it  
Come on peace, come on

[Repeat 1 till end]
