It's a full moon (look in the sky)  
Bright as can be (this is one of those nights)  
Enough for the whole world to see (I feel amazing)  
And the wind's (I feel it) danced with clouds  
And the stars shining so nakedly

I said you're something  
You're special  
You're blessed too n' you guide me  
You protect me from this cold world  
When you hold me and don't let go of me  
I said your wings are white they're very wide  
That's why you fly  
Yeah Yeah  
Baby angel girl  
With this world we're in you're my cherubin  
Yeah Yeah

It's amazing  
I can't believe this  
So like a dream

The ocean tugs with god's galaxy (everything's the way  
it should be)  
It's so beautiful when twilight arrives (this is my favorite  
time)  
As I sail n' move with the tides (and nothing in the world  
matters)  
This is what I see when he speaks to me (everytime)

I said you're something special  
You're blessed too n' you guide me  
You protect me from this cold world  
When you hold me and don't let go of me  
I said your wings are white they're very wide  
That's why you fly  
Yeah Yeah  
Baby angel girl  
With this world we're in  
You're my cherubin  
Yeah Yeah

I know the phrase far-fetched  
Could never seem this far (I love the way you talk to  
me)  
But did I ever tell you you're my shooting star  
Warmer than a house  
Faster than your car (there's nothing like it)  
Did I ever tell you you're my shooting star

It's a cold night  
But you would never know (you keep me warm)  
And there are more blues than any I could ever see

It's like a melody (like this song) every breath is  
heavenly  
A deep, deep sea  
I'm lost completely  
When you speak to me  
When you speak to me

Said you're something  
You're special  
You're blessed too  
You guide me (tell me more)  
You protect me from this cold world  
When you hold me (Yeah)  
And don't let go of me  
I said your wings are white  
They're very wide  
That's why you fly  
Yeah  
Baby angel girl  
With this world we're in  
You're my cherubin  
Yeah Yeah

I love it when you call me that

Something  
Special  
You blessed too and you guide me  
You protect me (changed my whole world)  
Oh you hold me  
And don't let go of me  
They're very wide  
That's why you fly  
With this world we're in  
You're my cherubin  
Yeah Yeah

Said you're something  
you're special

You're blessed too  
You guide me (tell me more)  
You protect me from this cold world  
When you hold me  
And don't let go of me  
I said your wings are white  
They're very wide  
That's why you fly  
Yeah  
Baby angel girl  
With this world we're in  
You're my cherubin  
Yeah Yeah

Hey  
Look out the window  
It's raining

Rain rain rain rain go away  
Would you mind comin' back another day

Rain rain rain rain go away  
Would you mind comin' back another day

Rain rain rain rain go away  
Would you mind comin' back another day

Rain rain rain rain go away  
Would you mind comin' back another day
