From - last night...

yeah baby
last night was
you know
I mean
when you touched me
I couldn't believe it was
oh baby
you don't know what you did to me baby
ah-hhh

From - last night

[Guru]

Supa love, baby you know youse a trooper love
Youse a dove, I hold you truly above
All the pigeons chickenheads golddiggers and them
You got it goin' on, your game's bigger than them
Take me back to the sensual feelings, your sexual
healing
soothes me, after a day of business dealings
What you wearin'? I know you look good, you even cook
good
And I'ma steal your love like a crook would, watch me

[Kelis]

You must be, out of your mind
if you think you're gettin' away (yeahh, uh-huh)
What you did to me last night
baby you've gotta stay (come again, come again)
I understand there's other places you must go
(yeah, but wait a minute)
But there's one thing you gotta do
baby before you go, so give me that love

Love, that supa love
The kind that keeps you all day dreamin' of
(gimme that love baby)
That's top rhythm flirt
Still feels good when you know it hurts

(yeah, I need that love)
Love, that supa love
The kind that keeps you all day dreamin of
(ohh, I can't stop)
Love, chocolate love
Melt it down with me.. (mmmm)

From - last night

[Guru]

There's not a problem that I can't fix
Not a hot track, that I can't flip
There ain't no sex style, that you can't pick
After my supa love, you'll be like you can't switch
You'll be hooked, shook cause you took the time out
to let me have your body plus turn your mind out
I was caressin you tight, blessin you right
You was suggestin to continue that, all last night
The best love, check how I do it with finesse love
Swing it with me, go on and put me to the test love
I'ma do the same to you..
And make sure you're takin care of the job you came to
do

[Kelis]

I can't get it outta my mind
what you did to me yesterday (well, uh-huh)
Baby this is so not right
It's unfair how you play (come again, come again)
What you did to my heart, to you it's just so so
(yeah, but wait a minute)
But there's one thing you gotta do
baby before you go, so give me that love

Love, that supa love (that super)
The kind that keeps you all day dreamin of
(gimme that love)
That's top rhythm flirt
Still feels good when you know it hurts
(yeah, gimme that love!)
Love, that supa love
The kind that keeps you all day dreamin' of
(I need it!)
Love, chocolate love
Melt it down with me.. (mmmm)

[Kelis]

From - last night...

Do you remember..
what I did when you walked in the door?

Huh yeah, I know you do
Ooohh, last night was..
so good baby!
Will you touch me again?
You know, right there

Give me that love!
Love, that supa love (that super)
The kind that keeps you all day dreamin of
(gimme that love)
That's top rhythm flirt
Still feels good when you know it hurts
(yeah, gimme that love!)
Love, that supa love
The kind that keeps you all day dreamin of
(I need it!)
Love, chocolate love
Melt it down with me.. (mmmm)
So give me that love!
