Put up your lighter (x4)

hook

Party, all night, fiesta, forever(x4)

(Big Gipp)

This be a party, for the whole world  
Travel cross seas like that girl  
We in the mind altering thangs  
Couldn't leave it alone, we offered it a loan  
Watch the porch jump straight to the ceiling  
Hear the party drums beat for beat  
So, some want us to leave, but they want more, the  
time came to sang  
Peace, they brought the rain, to wash away the pain  
So we all can party in the streets

(Cee-Lo)

Well, I don't know about you  
But we all trying to play dumb  
But don't you worry about me  
I promise you we gonna get free  
Just party

hook

(Khujjo)

See your eyes be burgundy, and your body drop  
Don't even look at your clock, ?skeet on your vest?  
Or get up and watch the hands fly, in the middle of  
December  
I wash the wife-beaters, heaters on full blast  
With some ?? we like scavengers circling your block  
While you do that your ?paper drop?  
You better hop jump and skip, before we dip  
Because we falling through you, like the Bloods and  
Crips  
Gotta close your eyes and start dreaming  
Everybody life got a little meaning  
Got to spread your wings and start flying

If you living don't be worrying bout' dying  
Just party

hook

(Cee-Lo)

Whether fast or slow, face it, pace it and let yourself go  
Might not get a chance to do it no mo'  
Let the music take your mind, leave the worries of the  
world behind  
Oh, such a beautiful sight for the blind  
It remind me of a celebration  
One nation under one rule  
Its that you ain't got nothing to prove  
Ohh, let the music move you, and sooth you, like its  
supposed to

Love is life, life is worth loving  
Love is life, life is worth living (x2)

hook

(T-Mo)

T-Mo cuts the record down to the bone  
And now we back rapping on the microphone  
I say signing autographs for little kids delight me  
We can't help but be some stars in the shining night  
See I was raised in the SWATS by my mom and pop  
To be a cold little brother that you can't stop  
On top of the charts, I'm a ladies man  
The type of brother with heart, weak suckers can't  
stand  
Cause I wanna be free, hear my spirit it's the clearest  
Can you hear it in the gospel  
I came down here cause I gotta believe  
Don't follow me, I say I need someone to take me to the  
Rave

hook
