[Chorus:]

When he want it he blindfolds me  
Then I get sexy on him, get sexy on him, like  
[Repeat 2x]

Told him what I like  
When he heat it up at night  
Made him stand behind my door and watch me (uh uh uh)  
And I couldn't believe the type  
He was saying all the right,  
Whispers gettin' mami right, I was (uh uh uh)  
So I had to get the ice  
Homie wanna fly the kite  
Had to show him what a pro I was (uh uh uh)  
I was headed for the light  
He refused to take a bite  
Till I put my blindfolds on  
I'm saying something like

[Bridge:]

You just taking it all, what's gon' be left for me  
I told you get it, but you're taking it all from me

[Chorus:]

When he want it he blindfolds me  
Then I get sexy on him, get sexy on him, like  
[Repeat 4x]

Hold up  
Let me take this off  
Just to see where I can catch my breath at all.  
Hold up  
You got a pretty strong team  
Got somethin on the bench that Kelis ain't seen  
Hold up  
Why you treat me like that  
Bout the 3rd or 4th time you ain't had to do that  
Hold up  
Won't you let me cheat once  
And I promise you won't never make me keep this on

[Bridge:]

You just taking it all, what's gon' be left for me  
I told you get it, but you're taking it all from me

[Chorus:]

When he want it he blindfolds me  
Then I get sexy on him, get sexy on him, like  
[Repeat 4x]

[Nas:]

The last thing you get  
Is a blindfold and a cigarette  
You willing to bet  
Like an ocean cruise  
Mami, I'm so addictive  
How long I('ve) been stroking you gives you motion  
sickness  
Grant your wishes  
I leave you four senses  
Smelling, feeling, tasting, and hearing  
One minute I'm gone  
Next I'm reappearing  
The bed is the bentley  
I'm doing the steering  
I got your eyes in the veil  
With your hands all over my tattoos  
Like your reading the braile  
Like my wine  
With a spicy aftertaste  
Though you fine  
I like to cover up half your face  
If you blind and can't see  
What I'm bout to do  
The suspense so intense won't allow you to move  
Gonna surprise you  
Like Hugh Grant in 8 and a half weeks  
Kelis and Nasty

[Bridge:]

You just taking it all, what's gon' be left for me  
I told you get it, but you're taking it all from me

[Chorus:]

When he want it he blindfolds me  
Then I get sexy on him, get sexy on him, like  
[Repeat 8x]
