I got the fight inside  
I have been crucified  
I rose and now you'll ride  
and stand right here beside,  
we'll all be friends real soon  
we will get through the doom  
saw how much we consume  
put me in a white room  
gone crazy called a loon  
then something new to bloom  
sacred female in womb  
of earth she will come through

[Hook]

I'll be doing yoga,  
a secret sithe decoder  
there's orbs up in my phota  
a jedi taught by yoda

[Chorus 2x]

I know you like your god,  
but I still want you on my squad  
I see the pain and facade  
even numbers need odd

[Verse 2]

And soon we all gonna fade to black  
ace of spades, then ya come right back  
I'm gonna play please leave intact  
you know if I lose we all get smacked,  
took a new king gave up a jack  
found my new game in a backpack  
its fun to sum but its quite wack,  
people die of what they lack  
we get high and spend our cash  
some die without food, you fast  
class is a problem, I see a caste  
we create the now in the past  
law of attraction held from grasp  
of those that need to know the path  
creating love dispelling wrath

master key holders create the facts

[Chorus 2x]

[Hook 2x]

My joy is yours lets date  
I like you and think your great  
Live love and just seal your fate  
This is real, no mistake  
(Rewind)

[Verse 3]

Unless you project your self hate  
they burnt me at the stake  
A goddess with good bait  
I'll catch you, you just wait  
Me you will not forgot  
Cast spells I am a witch  
And don't call me a bitch  
Forget 'bout being rich  
Desire it, got a glitch  
Religion just like a snitch  
Can often just make you twitch  
Your the -ish now make a wish

[Chorus x2]

[Verse 3]

Wrote songs we'll before twenty (b420)  
Had to create the money  
You didn't know that dummy  
Bite my head off its yummy  
Chewin' me I am gummy  
And then I feel real crummy  
A knot inside my tummy  
Want you to love me hunny  
Hurt me I'll call the dunny  
He'll paint you in the putty  
Followin the white bunny  
You fool time is not money  
Time is a fiction sunny  
My heart cant take it from me  
Assume cause nose is runny  
I do not think its funny

[Chorus 2x]
