He's in a good mood,  
Hes got that special class,  
Im flyin into him,  
Into continental pass  
And now were creators  
Caus we create time  
My inner light shouts  
And my soul shine  
You say you love my flow  
Wanna be part of my team  
And we gonna win the game  
Say im smart like sakretese  
Warm like a summers day  
Happy like new years eve  
We be the meditators  
Next dimension with ease  
I like the way you talkin  
If you floatin my way  
Ill be that red blood  
Pumpin in your veins  
Lets buy a ship  
And we can sail away  
Color lipstic,, smudge kisses right on your face.

Earth mother mother  
We see her under  
Come on love her lover  
Provide em brother  
Her waves'll take you under  
Cause she knows she bad  
Seein the waste and clutter it makes me sad

Chorus

Ooo baby I can meditate with you baby  
Wanna send good vibes to you baby  
Focus on your third eye  
You can call me guru, I can make your mind right  
I can make your mind right  
I can make your mind right boy

Cosmic invader let me shape shift

Know you like that  
Maybe its time to put some knowledge in your back  
pack  
Release the fist  
Your feelin right  
Were floatin now like helium balloons in the sky haha  
Im so trippy tight  
Were doing yoga right?  
Let the teachin begin  
Im diggin your insight  
He says kellee dont stop your the freshest  
Take me to the other world  
Come on press next

I love your tarot spread

He like the prince of cups  
Offerin from above  
Tick tock special love  
He likes how i chant  
He knows this aint a hobby  
Gotta keep my feet on the ground  
Cause im not just anybody.

Lift off when i come down  
To stop all the thinking  
Tryna eat the right foods  
Cuttin down on the drinkin  
And then i disappear  
Need gps to find me  
Remember this girl  
I thought he recognized me

Chorus

He like jammin  
Prior time expandin  
Hes got me in a trance  
And you should see us dancin  
He used to think im jaded  
But now im conciousness  
Inhale all the oxygen  
See future esp man  
And when the ohm ends  
Hes on my bed coastin  
Love potion hes emotion  
Yes hes my chosen  
He knows like lasts life hopeless  
And i joke like im suppose to  
Take this photo orbs will focus  
He says tell me how you know this

Tryna be calm and be centered  
You like to leave then reenter  
So lets do this he envoiced it  
Said your word transformed me  
So i opened where your focus  
Im only livin in this moment  
Hes a twin so we did this before  
Lots of lives behind us  
Cosmic coming back for more,  
Hey perfect, uhm i mean purpose,  
Well really your are what im here for haha  
I like the way you walk  
Mhmm i got it real bad  
Another realm awaits  
I know you got my back  
I know that it will last  
And i must stay awhile  
This love is really special  
Oh boy you make me smile.

Chorus
