[Hook]

Anything is possible  
You can remove all obstacles  
Anything is possible  
Together we are unstoppable  
You can pray the devil back to hell  
War to peace, fear to love, the sick made well  
Now what are you going to do  
To make sure your dreams come true

[Spoken Word]

It's 2012 and this true story happened several years ago.  
Let it be a reminder that you can do anything, and together we can make a difference

[Hook]

Anything is possible  
You can remove all obstacles  
Anything is possible  
Together we are unstoppable  
You can pray the devil back to hell  
War to peace, fear to love, the sick made well  
Now what are you going to do  
To make sure your dreams come true

[Verse 1]

I'm tell a lil story, it's full of guts and well it's gory  
But listen close and you will see  
How a dream can set you free  
Be thankful that you breath  
And thankful you can speak  
That you aren't in a war zone and that you have a home  
Civil war unrest in Africa out west  
Liberia in shambles  
With young boys they gamble  
Lost limbs, full a drugs  
Young with machine guns,  
Over control, over hate, and over funds  
Genocide, rape daily, families on the run

No food, no clothes, no fun  
No love, no hope, setting sun  
A country of ex-American slaves  
Of course it's messed up  
No help from the masters  
Now selling them diamonds what a disaster  
But hope came to a woman in a dream  
Despite how it may seem she brought water to her  
stream and

[Hook]

Anything is possible  
You can remove all obstacles  
Anything is possible  
Together we are unstoppable  
You can pray the devil back to hell  
War to peace, fear to love, the sick made well  
Now what are you going to do  
To make sure your dreams come true

[Verse 2]

The women prayin the devil back to hell  
Dead bodies rotten, they are sick from the smell  
Charles taylor in charge  
An evil man at large  
Called his movement antiterrorism  
Thinkin he's the Christ that's risen  
Wanted to reconstruct the minds of the children  
To make them robotic and stop all the feelin  
Raping mothers in front of them, this is real fam  
Natural resources, steadily revealin  
Money over love, keep on drillin  
And concealin the real nature of this killin  
The power it can seem oh so appealin  
But Leymah, she has a dream  
Heads to the church to redeem  
Christians and Muslims women gather together  
To ends the war religion didn't measure  
The level of love they had for their people  
A bullet doesn't know, Christian from Muslim, in this  
game we all equal

[Bridge]

Anything is possible  
You can remove all obstacles  
You can pray the devil back to hell  
War to peace, fear to love, sick made well  
Now what are you going to do  
To make sure your dreams come true

[Verse 3]

Followed the path of  
Ester from the bible  
Wearing white fighting for their people survival  
The women they want peace now  
If I die tell them this was how  
Went on a sex strike  
The men were like  
It's time to push and shove  
If we want any love  
The men join the fight, protestin left and right  
Finally the rebels go to Ghana  
To have some peace talks n show a lil honor  
They treat it like vaca but the women they said no way  
Stage a sit in what they say  
Leymah and her army ain't gon play  
Then it gets serious  
Taylors team is delirious  
Hopin he'll do time, he flees to Nigeria  
Charged with war crimes  
Disarmament so hard it took time  
But they women they cried on the boys  
Reminded them that guns are not toys  
Peace is a process, not an event  
The ensured it happen, were watchful of the men  
Many mistakes made by the UN  
Women didn't say if, but when  
Soon democratic elections were held  
The first woman in Africa was named president  
Democratically elected they set a precedent.

[Hook]

Anything is possible  
You can remove all obstacles  
Anything is possible  
Together we are unstoppable

OOO AAA (repeat)

You can pray the devil back to hell  
War to peace, fear to love, the sick made well  
Now what are you going to do  
To make sure your dreams come true
