Yeah... sendin this one out... to all the ladies and my
girls at nakturnal
Grab your journal... it's eternal...
See if you feel this...

[Verse 1]

The fear isn't out there, no ma it's just love
We co-create this pain inside forever
Oh please, hu be's, just take a look
A life can change from a person story or book
You hooked, cause ain't no such thing as halfway lifted
The spirits around when the crown opens expansive
sound
It's similar in shaman law
Now we all float up and fold, and beyond, we in control
They better have the gemstones ready
Settin the babies free and our third eye steady
Hand healing is subtle, we touch you
Cells expand no bs to go home wit
My aura is thick, cause I be up in the mix of rapture
Enlightenment, this is what I'm after
The hate got a girl depressed
Wish my ether was armor to absorb the stress
God bless ur soul, the hematite is laid searching for
the scroll
Holy grail quilt, the feminine re-enter
Two skills to one, put us together
It's like mixin citrine and guilt
Duality is lastin, takin my enemies with me
And all the outkasted I will never regret see
Goddess lives in me, retracted, and some confuse it as
an act
We've risen now we can't turn back
This is the fact, quantum physics is my crack
That can't say no, I will release the slack
Take a breath thank the goddess ur alive
Revival of the fifth sun we will survive

[Chorus]

Keep givin love till the day that we die
Revival of the fifth sun we will survive

Keep givin love till the day that we die
Revival of the fifth sun we will survive
Keep givin love till the day that we die
Revival of the fifth sun we will survive
Keep givin love till the day that we die
Revival of the fifth

[Verse 2]

I'm zapped in the vortex I melt
Go with the flow you know when the flow gets low
His feathers go, remember that
As long as you don't have my back
I'll be on the clock hustlin' recording a track
Reroute my team in tact and proceed exhausted
But certain payout more than the cost and
It's written the new world order, forget it, your smitten
My mother gave up spent a lot of time wishin
Mayan 5th world is my new sale pitchin
Ask my fam when I separated, alien fits in
But shit happens for a reason
No sense in holdin me down it's really u
That your fist squeezin
Science now explains how your higher self tickle
Hit with a 528 hertz occult
Take responsibility and stop all the blame
No need to shoot bigger than me
Forget the fame
The point is set to tip the hundredth monkey real quick
Only a few, absorbin all your prejudice
Full affect don't forget ain't done yet
No matter how much love I get
I'm making freedom my project, forever
Not givin up until it gets better
Indeed self improve and then we get together
When babies in the hearse, something just don't work
Try not to react to silly shit and let my feelins hurt
My crews all about truth, we still cute
And quickly see to inner beauty root
Beyond self, on the track, stood up when I feel
In the city of bridges the portal opens well
You better realize

[Chorus]

Keep givin love till the day that we die
Revival of the fifth sun we will survive
Keep givin love till the day that we die
Revival of the fifth sun we will survive
Keep givin love till the day that we die
Revival of the fifth sun we will survive
Keep givin love till the day that we die
Revival of the fifth
