Holding him closely
And it feels like ill fall
My body is here mostly
And my soul heres the call
My gut is ghostly
But i gave it my all
My girls there getting toasty
But ill bring them along

Say watcha want
Say watcha need
The time is now
Its the time indeed
Open your heart let your brain free
The way weÂ'll start
Energy youÂ'll bleed
You got my air
Im your friend
Type me your vision and press send
I got your back
I can defend
There is no start
There is no end

The clock inside
Hold my redmpemptioon
And im very near to reach my ascention
I hope you understand
I have good intentions
And theres a road to hell that I will never mention

I am right here and now file for an extension
And we are all together now
There is no excp.
To finish all my work
I steadily kept venting
I never benn very good at handling rejec.

Depres ofton cause serious infection
She denied me twice
Kinda caused regression
And i was often scared of boys and erection

Wasnt bout my body, but my heart needed protection
Planning a take over
Universal intervention
We are all of earth
And she needs well respected
I will stop the virus
Please no more injection

And you do not know me
Please with the correction

Chorus

Forgive me for so ofton not giving you attention
I will gladly listen now
Give me your suggestion
Create and heard from dust
Crystals hold the lesson
Ipf running for election
I am steadily building my collection
Of bad ass women seeking more than perfection
I am just liek you
You are my invention
Both sides of the mirror
WeÂ'll create reflection
Sometimes hard to funxtion
I feel a new something
Mans world assumption
Release all my judgement
We went out to lunch
We been right here punchin
Cause for injunxtion
And we all ben rushin
I been on my knees
I can hear the please of the poor and weak and i watch
them bleed
Powers that be
Not saying please
Taken what they want not what they need

Chorus

Wait for the signal
Frequency will mathc
Vibrat pivotal
Im spinning to fast
My breath im slowing down
I hope this will last
We speak without talking
Third eye feels a blast
Theres no time for sulking

Its been written and it shall pass
Asention i am stalking
Im erasing all my wraith
Goodbye to my ego
Im now on the path
My aura is pulsing
My palm shows my map
