[Chorus 2x]

If you don't start none, then there won't be none
When you make your hell then you cannot run
Its like a secret, seems to have been kept from
The average person, forgot we're all one

[Verse 1]

The experiment is affected by the observer
I got a new dream I upload it on my server
You want to buy me out and I say how about a merger
Together we have fervor, then we will get further
What you see is what you get and I aint done yet.
As soon as I fret i'm thankful I aint dead
You could say my attitude is that of gratitude
And you start acting rude and I say chill dude
You could start it you could end
Forgetting what you said
Created in your head, your enemy and friend
Belated in my send I evolutionize the dead
Open brains instead of puppets on a thread
From aliens I bled they operated on my head
Defeat in all the dread I got you outta bed
Many barely fed and our hands are red
Bleeding for the cred, fallin with no tread

[Chorus 3x]

If you don't start none, then there won't be none
When you make your hell then you cannot run
Its like a secret, seems to have been kept from
The average person, forgot we're all one

[Verse 2]

You say you love me but want control
I'm not your robot I got a soul
I do not blame you the theory is old
Kept from the women and all the poor
You don't realize how deep it gets
A few in power decide the steps
Now the tower fell with regret

A physop gone wrong and what'd we get
Illuminati with ill effects

Spiritual warfare and now what's next
I got a class system kinda complex
Think I could uncreate this mess
The Rastah's they call me an empress
And with my energy I will bless
I obsess, it's a test, I release my stress
Enlightened ones hope you'll be impressed

[Chorus 3x]

If you don't start none, then there won't be none
When you make your hell then you cannot run
Its like a secret, seems to have been kept from
The average person, forgot we're all one

[Verse 3]

The child soldiers they are a warning
Are you aware of the global morning
Video games numb the planets warming
The gate is open the bees are swarming
The polar sides they separate
Negative waits at positives gates
The magnets growing now clear the slate
Empty your mind now so much at stake
Turn off the news you know its all fake
Inside your brain disastrous quake
Powers inside of all of us to make
A heaven now for our children's sake
Consciousness rise, it is our fate
The Zeitgeist movie, they put it just great
Venus project, no one must take
We all will give, its not too late.

[Chorus 5x]

If you don't start none, then there won't be none
When you make your hell then you cannot run
Its like a secret, seems to have been kept from
The average person, forgot we're all one
