Why don't you all just listen
to what i say
don't hafta if you dont wanna
you can turn away

it's just a little something
a little something from me
its a penny for my thoughts
well, i will give it to you free

You don't have to stress
To impress about the time
That you should be fillin'
When you're chillin' like a villain
Got to get it straight
You got to work it on out
Don't think about being late
That ain't what it is about

Say we got to take the time
Out of our busy day
And just do nothin'
Your brain likes it that way

There's no need to freek
To the peak that your pockets
They are not fillin'
When you're chillin' like a villain

They say you got to exercise
Now this is true
The same time realize
You got to chill too

I said it's not too difficult
Matter of fact it is a breeze
Nobody is at fault
When it happens naturally with ease

Now don't you get troubled
Or get bothered

By the facts that they always be drilling
When you're chillin' like a villain

Y'all can take it or leave it
You can throw it on down
You can go fetch it and retrieve it
With this new joy you have found

When it's properly done
Bet you can know right then
Put your heads to the sun
And let it soak right in

There is no need to sew your seed
When your cup
Is constantly spillin'
When you're chillin' like a villain

When you're chillin' like a villain
When you're chillin' like a villain
When you're chillin' like a villain
Now we're chillin like a villain
I'm chillin' like a villain
I'm chillin' like a villain
I'm chillin' like a villain
