i wanna jump your bones
but your on the phone
and it sounds
kind of important

i wanna jump your bones
but i don't think you will go for it
in the middle of the call
without a headset

i wanna turn on the fan
blow back your hair
peel your layers right in your
swivel desk chair
but i show restraint
even though i don't want to
i wanna jump your bones

i wanna jump your bones
when you were driving me home
when i've had to much
and i'm afraid to drive myself

i wanna jump your bones
but i know it's dangerous
in a moving car
in the middle of the day

i wanna turn up the radio
peel your layers as you drive down the road
and throw your clothes
out of the sunroof
and the window
i wanna jump your bones

i wanna jump your bones
when you were cooking the dinner
but i know its not so sanitary

i wanna jump your bones
but i had to hesitate

why do you treat me like a dog
but you don't let me lick the plate

i wanna push off your pans
and dishes to the ground
throw you on the kitchen table upside down
but i don't and i show some restraint
even though i don't want to

i wanna jump your bones
every single one of the eleven hours that i'm awake
and i'm quickly becoming the master
the master of restraint

i wanna jump your bones
but you were on the phone
and it sounds kind of important
