Human dreidel spinning around
How do you not dizzy out and fall down
lis that what happens when you feel the sound but if
that was me i would be on the ground
I would not get up i would dance on my back throw my
legs up in the air like i don't care
Then wave them side to side then I'd bust into a
windmill then right into a backspin
Freeker right by the speaker never seem to get enough
Priceless that's fresh and what's space is possession
like yeah that's the stuff
Electronic stereophonic coming from the left and the
right
Its good in the day i like it that way but it's perfectly
normal at night
Brave girl with a lollipop binky and a face full of metal
Her eyes is as wide as a truck in some body just for the
pedal
Her mental clearance is high but the overpass is low
Shes ducks her head holds on tight when she gets
through she lets go
Cause she's a tweeker right by the speaker never seem
to get enough
Priceless that's fresh and what's space is possession
like yeah that's the stuff
Electronic stereophonic coming from the left and the
right
Its good in the day i like it that way but it's perfectly
normal at night
Yellow shirt bouncers gather in the corner
Feel like the room just got a little warmer
Pointin' at you what up with that
But don't worry yo i got your back, but
One of them dudes is as big as the both of us
Big old arms, big as a school bus
Looks like he could snap us in two
I aint go no gun so i think we should run.
li dunno about you spinning around
How do you not dizzy ever fall down
Awwwww that's what happens when feel the sound
but if that was me i would be on the ground
I would not get up i would dance on my back throw my

legs up in the air like i don't care then wave
