She always wanna take my time
Sleep in my bed every night
Baby you gotta recognize
Though you may benefit there is no commit

Got your friends telling you to lock it down
They say by now he shoulda, coulda, woulda put it
down
That wandering around, sitting there scheming
Talking bout a ring girl you must be dreaming

So quit believing, its more than it is
Showing up at my crib how you know where I live
And I donâ€™t know how to make it more clear
You ainâ€™t gotta go home but you canâ€™t stay here

Got me feeling like a cowboy now
Oh I gotta roam
But every time I ride back through this town
Oh you know itâ€™s on

She's always calling when she's feeling lonely
I told her only call if she's feeling ready
But when I'm grabbing Nikes
She's grabbing on me, begging please
Baby don't leave
I canâ€™t handle that, you know the rules
If you can't handle that
Then you can choose
And Imma be cool either way
Love it or leave it, itâ€™s all the same
I ainâ€™t with playing games
