My head is poundin,
Oh great another day,
I hear the sounds, and they feel a mile away,
And what I can't afford say,
I keep inside and try, to find another way,
Ok its my turn,
I took alotta crap and it ends right now,
And I've learned,
Your never gonna get it if you wait around
This town, this scene, this job, no dreams, I think
I need, To get away

When its fast or its slow,
Gotta keep it movin, movin,
When ur high or ur low,
Gotta keep it movin movin,
When u know in your soul,
U gotta keep it movin, You say,
Imma keep it movin, You say,
Imma keep it movin, Soooooo

You can live the high life, we can live the high life
You can live the high life, we can live the high life
Every city world wide
Throw your hands up in the sky
Its my time, my time, my time, gotta keep it movin on

This time, Tired of sittin waitin,=
I Gotta take my life in my hands, =And I,=
Iâ€™m gonna be the greatest I got some big plans,
and ohhh,=
When they see me standin smiling,
So high up but he keep on climbin,====
To the top, won't stop, he got,Some rocks,
but he came back with them diamonds,=
Ya the kid did well,=
Back in the day when they he would fail,=
But when I was livin in hell,
I'd tell myself
