"Leaving Me Out"

Visit "[Leaving Me Out](#)" on MotoLyrics.com

You move in ways never feel it when I go
Well I never worry about things like that, yet
You play in what you want to say, loving what you got to
say
I believe in you
Well you never worry about things like that, yet

Played in, get me, loving, let me down
What did I want to find with -- the love --
Could tell me of all that kept me around

You canâ€™t keep bringing me in
So youâ€™re leaving me out
With you I find love and all my doubt

I feel the way, I feel it when you run inside my head
I never worry about things like that, yet
Painted what you gotta see loving what you want to be
I believe in you
You never worry about things like that, yet
Play to get me, love and save you now
But what did I want to find in
That love could play me and leave me out

And now weâ€™re living in lies again
And now weâ€™re living in lies again
Down, down but I never thought of you yesterday
You are all, you are all
Down, down but I never thought of you yesterday
You are all, you are all that gets me, to love, and let it
down
What did I want to find in this love
You let me go, you leave me out, yeah
