She comes in a box with a guarantee of nothing  
Too fake, so shake man sheâ€™s no remedy  
Brown into blonde and black as noon  
Sheâ€™s on to you  
Think that the one making coffee could be  
Better than the girl, who fell in love quickly  
She said pick me to be the one whoâ€™s going to see

Youâ€™re so divine that  
I may not find it  
In her, or in any other way

Was it her on the sidewalk in the red  
Or your best friendâ€™s sister or her friend instead  
Or that thing the night before you thought youâ€™d  
see  
The one down the street just waiting for you  
Oh swinging like the trees do, finding nature in all  
thatâ€™s true  
And what you see as she screams  
Oh, followed by the good lordâ€™s name in vain  
Drop an F-bomb and rush to your surprise  
As you let the cigarette smoke rise, you rise, we rise

When it all comes down to  
What you need to know  
Sheâ€™s everywhere and Iâ€™ve tried to go  
And take what she is giving  
Inhale and start living and beat the reality of me  
Oh Iâ€™m knowing this, yeah, girl youâ€™re so divine
