

## Cauterize

### "If you go/cauterize"

Visit "[If you go/cauterize](#)" on MotoLyrics.com

This song was called Cauterize back when the band was named TOE...

its kind of sad that i  
have learned  
to deal with  
things like this

being strong  
means being heartless

Tell me  
how do the scars feel  
after the wounds heal  
did it burn when  
they cauterized  
did it show  
that you were  
hiding the hurt inside  
do your eyes still shine as bright  
as they did the days  
when you were at your best

if you run away from me  
im not running after you  
cause im so tired

if you turn away  
from this  
dont look back  
cause ill be gone

if you go  
ill forget you  
you're gone  
i wont miss you  
sorry  
thats just the way  
ive learned to deal  
with a broken heart

if you go  
ill forget you  
your gone  
i wont miss you  
sorry  
thats just they way  
ive learned to deal  
with a broken heart  
and broken promises

its been a long time  
since ive seen you  
and longer since we talked  
and the last thing  
i said was that  
i had nothing to say  
now im choking on my words  
all the things  
i didnt say  
that could have made  
it all okay

now that your  
all alone  
and feeling sorry  
for your self  
did it make sense  
to lie to me  
and decieve me  
like you did

if you run away from me  
im not running after you  
cause im so tired  
if you turn away from this  
dont look back  
cause ill be gone

if you go  
ill forget you  
you're gone  
i wont miss you  
sorry  
thats just the way  
ive learned to deal  
with a broken heart

if you go  
ill forget you  
you're gone  
i wont miss you

sorry  
thats just the way  
ive learned to deal  
with a broken heart  
and broken promises

Tell me  
how do the scars feel  
after the wounds heal  
did they burn  
when they cauterized  
did it show  
that you were hiding  
the hurt inside  
do your eyes still  
shine as bright  
as they did  
the days you were at your best

how do the scars feel  
after the wounds heal  
did it burn when they cauterized (3x till end)
