Are you loathsome tonight  
Chasing hours with wine  
If it's drama you wanted you know darling you got it  
It's what we do best always dressed to impress  
Try to cover it in make up but there's no hiding this  
mess

Remember love and how we used to be in it  
She said she won't she's trying hard to forget it  
Remember lust and how a touch gave us shivers  
I can't get close to you your skin gives me slivers

You don't care enough to cry  
There's nothing real left in your eyes  
No fairy tales no lullabies  
I'm only asking this of you one time

May I have this dance before the moment's past  
I hate this song but I hope that it lasts  
I'll sing in your ear off time and out of key  
But you're just not happy being miserable with me

The mirror ball fell to the floor between us  
So we can see how pathetic we look in a thousand little  
pieces  
So watch your step for the next three minutes  
I'm not giving up on you until this song is finished

Remember love and all the ways that we'd make it  
We lost the passion when did you start to fake it  
Remember lust and how a touch gave us shivers  
I can't get close to you your skin gives me slivers

The way you look tonight  
The way you can't look me right in the eye  
I've never seen a smile so wide  
I've never seen a smile so contrived  
I know that you would rather be anywhere but here with  
me

May I have this dance because the moments passing  
I hate this song and it's just not lasting

I'll scream in your ear off time and out of tune  
Just know I was happy being miserable with you
