Another night with the same old story
Another Friday night doesn't mean another fight
We're all hanging out
Gotta bout twelve down
It's never fun when you get loaded

Whenever I am up it seems you bring me down
It doesn't make much sense
That's the way (***)

And I'm still waitin'
For the day when all
The music's gone
And you're my favorite band

I'm sick of all this shit
But I'm gonna deal with it
'Cause I know it will work out fine
And I don't want to see you go

But until that time
Even though I'm gonna try
I don't know if I can take the abuse anymore

Whenever I am up it seems you bring me down
It doesn't make much sense
That's the way (***)

And I'm still waitin'
For the day when all
The music's gone
And you're my favorite band
